Ebitari is amazing on all accounts. She is fantastic to work with and really knows Zoho. Our project has some unique complexities and Ebitari has come up with many creative solutions for unanticipated challenges that have surfaced. VERY Highly recommended!!
KANDY Outdoor Flooring

It was a blessing to have Ebitari design my first website. Her expertise allowed me to have a very creative, attractive and friendly website. Her professional and strategic approach made working with her so easy. I highly recommend her web design services. D. Pickett & Associates

Authorized Partner

Zoho CRM and Systems Integration

Zoho CRM is a cloud-based CRM software that helps businesses better manage their customer relations by streamlining organization-wide sales and marketing functions in a single system that is accessible anytime, anywhere.

Zoho has 40+ other applications for operating a business including:

- Sales and Marketing
- Finance and Collaboration
- Support
- Reporting/Business Intelligence
- Human Resources and Recruiting.

We are Certified Zoho integrators of these applications for every business requirement.

Project Management

Bringing about beneficial change and added value to our customers, we undertake projects to meet our customers' unique goals and objectives.

As Certified Project Managers, we:

- Create schedules, test and oversee quality control
- Deliver the project according to plan
- Attain resources, manage our customers' teams and third-party contractors and/or consultants.
- Identify, assess and minimize project risks

Ebitari was very professional, flexible and patient in her approach. She provided us with excellent input for further Zoho CRM developments. I can only recommend Ebi! TURN2TEK

Technical Writing and Documentation

Our technical writing skills covers the spectrum of technology development from the proposal phase until final user documentation. Technical writing work includes:

- Proposals
- Requirements specifications
- User Guides
- Project Documentation
- Test scripts
- Studies and Reports

Web Design

Our web services comprise all the stages of web design. We make sure that the website we design for you meets your goals. Our website designs are modern and effective. We support your website using Zoho applications to make your website drive business to you!

Training Development

We provide training on all our systems integrations accompanied by training documentation. We provide virtual and in-person and training. We also offer online training through videos that can be accessed on-demand by trainees. Our training documentation and online training offer long-term continuity for our courses.
